Failure to comply makes the Stock Contractor responsible for membership payment for personal without card and rodeo secretary is to hold payment from stock pay. Two (2) current card holding Bullfighters and two Pick-Up must be used at every NTHSRA approved rodeo.
- D. It is the responsibility of the Stock Contractor to furnish a “Contract Help List” to the hose rodeo team for the gate. Stock Contractor Help List is defined as these men/women working that weekends rodeo to be allowed entrance to the grounds at no charge.

SECTION SIX: Stock Specifications.

A list showing all stock specifications will be sent to each stock producer before said producer can supply stock for any NTHSRA rodeo. Stock producer must sign an application in order to be an approved NTHSRA stock producer.

SECTION SEVEN: Un-Suitable Stock.

Both judges, a stock committee member and a Board of Director can warn or blacklist a stock contractor for 60 days if his stock does not meet suitable requirements such as wild and unruly bucking stock, stock not in shape to buck or uneven calves or steers.

SECTION EIGHT: Pulling Stock.

Stock committee cannot pull stock without a majority vote of at least one judge, arena director and a stock committee member with stock contractor present prior to each performance.

SECTION NINE: Re-Run Pens.

Stock contractor has the right to set his own re-run pens.

SECTION TEN: Cattle Overweight.

The stock producer may be fined a minimum fine of \$50 on the pen of cattle that are over weight/underweight and then \$1 per pound for each calf under the weight limit 180 and over the weight limit of 225. All steer wrestling steers must weigh a minimum of 400 pounds and a maximum of 600 pounds. Any steer suspected of not conforming to weight requirements may be contested under protest.

It is suggested that this fine be per run on that animal, depending on how the stock is paid for.

1. The starting line should be at least 15 yards from the chutes, arena conditions permitting.
2. One goat will be staked in the center of the arena at a minimum of 100 feet from the starting line and at least 50 feet off back fence.
3. The goat will be tied to a stake with a rope at least ten feet in length and no more than fifteen feet (same length each performance). The goat collar and rope shall be furnished by NTHSRA. The stake shall be pounded completely into the ground so that no part is visible.
4. All positions will be drawn; three goats will be drawn as to which goat goes first. The runs will be alternated as drawn. The goat will be changed after every three runs. MTO/VTO/TO is considered a RUN on the goat.
5. If a goat is tied less than three times consecutively in a performance, that goat will be the first goat staked in the next performance and tied as many times as needed to complete three consecutive runs.
6. Each goat must be tied down 5 times with a goat string before the first performance by someone not entered at that rodeo and witnessed by that week's arena director and/or judge. This applies to all goats whether they are fresh or not fresh.
7. The contestant must be mounted on a horse and must ride from the starting line to the goat, dismount from her horse, throw the goat by hand and tie any three feet together with a string with at least one wrap and tie. The contestant must step back three(3) feet from the goat after signaling for time before the field judge starts the six (6) second time limit for the goat to remain tied. Goat's feet must be crossed when tied and must remain crossed.
8. If goat is down when contestant reaches it, the goat must be let to its feet or may be helped up and the goat must clear the ground before being thrown by hand.
9. Time started by the electric timer and stopped by the flag judge at the goat. Flag judge will start and stop time when horse's nose crosses the line.
10. There will be a 30 second time limit.
11. Should the girl run over or contact the goat or rope while having control of her horse, she will be fined ten seconds; if the goat should break away because of the fault of the horse, she will be disqualified. If the goat should break away for any other reason, it will be left to the judge's discretion whether or not she will get a re-run. Clarification of rule: A contestant is still in control until both feet are on the ground.
12. The goat is to be held straight back from the stake when the goat tier enters arena. When she crosses the starting line, the goat will be released.
13. Contestants will be disqualified for going back to the tie or the goat after she has signaled for the completion of the tie at the judge's discretion.
14. All goats used in the goat tying event will be of equal medium size and as near equal in temperament. Goats must be no less than 45 lbs. and no more than 65 lbs. All must either have horns or muley.
15. Goats shall be tagged.
16. Sponsoring club will provide someone other than goat tying contestants or their parents to hold the goat.
17. No goat is to be used more than four rodeos in one season.
18. Contestants running out of order may be disqualified at the discretion of the judge.

GENERAL RULES FOR CALF ROPING, RIBBON ROPING, BREAKAWAY ROPING, STEER WRESTLING, AND TEAM ROPING

1. The roping box is to be considered a part of the arena and a calf or steer which circles back and enters the roping box after the contestant has called for the release, is still subject to time. The stopwatch will not be stopped when the animal goes into the roping or dogging box. If the animal does do so, it is the responsibility of the barrier judge and arena director to chase the animal back out into the arena proper as rapidly as possible.
2. Contestant will get one chance at animal and one chance at barrier. If re-run is awarded for any reason he will carry any penalties with him.
3. Barriers –Score Line is the distance from the barrier pin to the end of a calf/steer's nose when the pin is pulled by the neck rope. The score line on steer wrestling should be the length of the box minus six feet from the barrier pin with an 8 foot maximum. The neck rope will be 2 feet short of the score line. On team roping the score line should be the length of the box minus 4 feet with a 10 foot minimum. The neck rope will be 2 feet short of the score line. On calf roping, ribbon roping and breakaway roping the score line should be the length of the box minus 4 feet with a 10 foot minimum. The neck rope will be 18 inches short of the score line. Adjustments from barrier pin to the score line when not at the NTHSRA arena may be made by the Arena Director and/or representative while trying to keep the above described lengths.
4. If animal escapes the arena before the contestant completes his run, the flag judge will immediately signal for the time to stop. The contestant will get the animal back, lap and tap, with elapsed time of the first attempt added to the run. If the watch is not stopped immediately, the contestant will receive the animal over, plus any barrier penalty.
5. If the judge sees that he has made an error in flagging, he must declare a re-run before the contestant leaves the arena, plus any barrier penalty.
6. The line judge must have a tape measure in his possession in case the short end of the barrier is carried. The tail of the barrier should not exceed 10 inches in length. A longer tail on a barrier will often be carried when he should have broken the barrier. If the tail is carried 10 feet or further, from a point on the ground directly under the pin to the closest part of the tail, the contestant is considered without barrier penalty.
7. Barrier equipment must be inspected by the judge before each timed event. If equipment is faulty, it must be replaced. Should barrier break at any point other than designated breaking point, the barrier judge shall determine whether the break was caused by the contestant. If contestant obviously beats barrier, or rope is broken and string is unbroken, barrier judge may assess a 10 second penalty against the contestant.
8. An animal belongs to a contestant when he calls for him, regardless of what happens, except in cases of mechanical failure. In case of mechanical failure, the barrier judge will grant a re-run. If barrier equipment hangs on animal and contestant tries the animal, he accepts the animal. If contestant pulls up, he receives the same stock back plus any barrier penalties, if the judge sees that he beat the barrier.
9. Gate puller must be the same person for the entire rodeo if possible.
10. Pusher may not leave mouth of chute before contestant crosses line. Lap and tap: A lap and tap start occurs when the calf or steer is released from the chute without a barrier. Time will start when the calf's or steer's nose crosses the score line and is flagged by the barrier judge. The roper may leave the box as soon as the calf leaves the chute or may choose to rope the calf from the box.
11. If the stock fails to break the automatic barrier neck rope away from its neck and is hung in the neck rope at the chute, it will be considered a mechanical failure. A re-run will be granted on the same animal without any barrier penalties. If the stock fails to break the neck rope a second time the judge shall grant a re-run.

CALF ROPING

1. There shall be two individual timekeepers, a tie or field judge and a barrier judge.
2. Automatic barrier will start time.
3. Length of box will remain the same for all ropers.
4. Any contestant will have the right to ride his horse in the arena and back into the box before the barrier is set.

5. Only one loop will be permitted. Exceptions: Finals Rodeo two loops will be allowed, if two loops are carried.
6. A legal catch shall be catch as catch can. Loop must be drawn tight around some portion of the animal.
7. Roping the calf without releasing the loop from the hand is not permitted.
8. The contestant must adjust the rope and reins in a manner, which will prevent his horse from dragging the calf. If roper intentionally causes horse to drag the calf more than ten feet, the field judge may stop the horse and contestant will be disqualified.
9. The contestant must rope the calf, dismount, go and tie any three feet and feet must remain crossed. To qualify as a legal tie there shall be at least one wrap around any 3 legs (or all three legs must be tied together) and secured with a half hitch. (example: 1 wrap around two legs, third leg wrapped to one or both of first two). The tie must hold the three legs and legs remain crossed until passed on by the judge.
10. If the calf is down when the roper reaches it, the calf must be let up to its feet or the calf may be helped up with at least three legs dangling. If caught by foot or leg at least two legs must be dangling, and then thrown by hand. If the roper's hand is on the calf when it falls, the calf is considered thrown by hand. Rope must hold calf until roper gets hand on calf.
11. The tie must hold until passed on by the field judge which will be a six second period after the roper has mounted his horse and taken one step forward to allow slack in the rope. If the tie comes loose or the legs become uncrossed before the tie has been passed on by the field judge, the roper will receive no time. The field judge will be mounted and must use a stopwatch.
12. The roper will be disqualified for going back to the tie or calf after he has signaled for time to stop, at the discretion of the judge.
13. Ten seconds will be added to the time for a roper breaking the barrier and will be carried with any re-run.
14. Roper will have a 30 second time limit.
15. Hotshot will be used only if requested by roper.
16. When any calf is let out or breaks out of arena, the time will stop. See General Rules.
17. If automatic barrier fails and time is recorded, contestant will receive time. It will be the line judge's decision if the contestant beat the barrier. If so a plus 10 will be added. If time is not recorded, re-run will be awarded only if qualified catch is made. If any part of barrier fouls the roper, he must not contest calf to receive a re-run.
18. If a roper's horse comes into contact with a calf, a rerun will not be granted.
19. Roper will tie hard and fast and use neck rope and/or noseband keeper.
20. Tie down calves' weight 180 to 225 pounds.

RIBBON ROPING

4. Roper runs their own ribbon. They are allowed to get whoever they like to mug as long as they are in dress code.
5. All ribbons will be put on the calves with a rubber band and should be as close as possible to the tail head. All ribbons will be 9" in length, brightly colored and tied in the middle.
6. The runner must take the ribbon off the calf's tail and carry it across the flag line. Flag line to be the same as the score line. The line must be permanently marked for the entire weekend. Part or all of the ribbon is passable. The ribbon must be presented to the judge; the rubber band is not part of the ribbon. Contestant will be disqualified for runner crossing line without all or part of ribbon. If a roper finds calf without a ribbon on its tail, he is to stop and notify the field judge in order to receive a re-run. Re-run must be taken on same calf, plus any barrier penalties.
7. A legal catch shall be catch as catch can. The rope must hold calf to horse until the runner gets his hands on calf to be considered a catch as catch can.

8. The rope does not have to be off the calf before the runner crosses the score line.
9. If field judge finds that a calf did not have a ribbon on its tail when the runner got to it, then the roper shall be entitled to rope the same calf, (i.e.: must take another run at the same calf), plus any barrier penalties.
10. Roper will tie hard and fast and use neck rope and/or noseband keeper. No quick release.
11. A ten second fine will be assessed for breaking the barrier and will be carried to any re-runs.
12. Roping the calf without releasing the loop is not permitted.
13. There will be a 30 second time limit.
14. Weight limit on ribbon roping cattle shall be a minimum of 160lbs, and a maximum of 225lbs.

BREAKAWAY ROPING

3. Only one loop will be permitted. Exception: Finals Rodeo – two loops will be allowed if two loops are carried.
4. Contestant will be disqualified for roping calf without throwing loop.
5. If rope is broken free from horn by contestant, the contestant will receive no time. The calf must break the rope free from the horn. If the rope should dally around the horn, the contestant may ride forward, undally the rope, and stop the horse to make the rope break away.
6. Ropes are to be tied to saddle horn with nylon string. A knot must be at the end of the rope with the string tied at the knot. There will be no tail. A flag that is visible to the flagman or judge must be attached at the knot at the end of the rope. Nothing may be used on the rope to keep loop from drawing tight.
7. A nylon string will be furnished by NTHSRA to tie the rope to the saddle horn. This is the only string contestants may use for the purpose of tying the rope to the saddle horn. Arena Director and or barrier judge will inspect the string to be attached properly. Failure to comply with this rule will be a disqualification for that rodeo.
8. A dropped loop will be counted as a thrown loop.
9. Contestants dismounting for any reason before a legal catch is made or time is stopped by the field judge will be disqualified.
10. If horse comes in contact with calf, this is not grounds for a re-run.
11. There will be a 30 second time limit with the gates closed. The time will be announced to the contestant at the end of 30 seconds.
12. Time will be started and stopped between two flags; one at the barrier (mechanical or manual) to start and one at the field judge to stop.
13. If the barrier judge is used for flagging time, time will start when the calf's nose crosses the score line.
14. The barrier judge will assess a ten second penalty for breaking the barrier. This penalty will be added to the contestant's time and will be carried with any re-runs. The barrier judge shall be responsible for the operation of the barrier.
15. The flag or field judge shall be mounted and in position to accurately judge the contestants.
16. The field or flag judge will stop timer when the rope is broken from saddle horn by a legal catch.
17. Time shall be stopped only at the field judge's signal. In the event time is stopped for any other reason other than the field judge's signal, the contestant will receive a lap and tap time and the same number of loops being carried at the time of stoppage.
18. If automatic barrier fails and time is recorded, contestant will receive time with no penalty. If time is not recorded, re-run will be awarded only if qualified catch is made. If any part of barrier fouls the roper, she must not contest calf to receive a re-run.

DALLY TEAM ROPING

Team Roper can enter once as a header and once as a heeler. If a team roper earns points at both ends, all points will be counted for the event as well as All Around and Rookie. Two loops will be permitted. Team roping

pairs must be made and sent to the arena director by the end of goat tying.

1. A team can be composed of two members of NTHSRA: 2 boys, 2 girls, or 1 boy and 1 girl.

7. Time will be stopped when steer is roped, both horses facing steer with ropes tight and dallied and straight from saddle horn to steer. Horses must have all four feet on the ground. Header must hold dally if asked by field judge. Failure to do so will result in disqualification.
8. Steer belongs to roper after he calls for steer, regardless of what happens, with one exception; if steer gets out of arena, flag will be dropped and the roper gets the steer back lap and tap with the time added which was taken when steer left arena plus any barrier penalties. See General Rules for Ropers and also rules for interference.
9. There will be only three legal head catches.
 - A. Head or both horns.
 - B. Half a head.
 - C. Around the neck.
10. Roping steer without turning loose of the loop will be considered no catch. Header must dally to stop steer. Boy heelers must dally. Girl heelers may dally or tie on with a quick release.
11. If hondo passes over one horn, the loop over the other, catch is illegal.
12. If loop crosses itself in the head catch, it is illegal.
13. If steer is roped by one horn, roper is not allowed to ride up and put rope over the other horn or head with his hand.
14. No foul catches can be removed by hand.
15. Any heel catch behind both shoulders is legal if rope goes up heels.
16. One hind foot catch receives a five second penalty.
17. If the heeler ropes a front foot or feet in the heel loop, this is a foul catch. Neither contestant may remove the front foot or feet from loop by hand. However, should the front foot or feet come out of the heel loop by time the field judge drops his flag, the time will be counted.
18. After the header ropes the steer and turns off, the steer must take one or more forward strides or jumps before the heeler can rope him. No cross firing allowed. If in the opinion of the field judge, a heel loop is thrown before the header has dallied and changed direction of the steer, team shall receive no time.
19. Header must release or slacken rope after catch is approved. Failure to observe this rule will result in disqualification.
20. Steer must not be handled roughly at any time and ropers may be disqualified if, in the opinion of the judge, they have intentionally done so.
21. If header jerks steer off feet, a ten second penalty will be assessed. If steer trips or falls, header must not drag over eight feet before steer regains his footing or the team will be disqualified.
22. Broken rope or dropped rope will be considered no time.
23. Any question as to catches will be decided by the judge.
24. If a contestant's partner does not participate in the rodeo by a no-show or an MTO, the contestant that is present may get a refund or pick up a partner from among any of the contestants entered at the rodeo, except team ropers already scheduled to compete the maximum number of times in the event. Picked up partner must pay an entry fee before competing. No show partners must notify partner or rodeo secretary 3 hours before the performance or they will be subject to a 2 rodeo disqualification.
25. There is a 30 second time limit.

In either case, the event points and awards will not be affected.
3. All horns on steer wrestling steers must be tipped to a size no smaller than a nickel.
4. A contestant must furnish or arrange for his own hazer and horses. The same hazer and/or horses may be used by more than one contestant. The hazer must conform to the dress code and conduct rules. Rule violation by hazer will result in disqualification of contestant. The hazer may be a student or an adult. The hazer may not bat or strike the steer to slow or stop forward motion while the contestant is attempting to catch steer, but he may bump him with hazing horse. Failure to observe this rule will disqualify the contestant.
5. Two judges will be used in this event. The barrier judge will be on the ground even with the score line in front of the box on the contestant's side. The barrier judge will observe the rule on any action prior to the contestant crossing the score line (such as equipment malfunction or contestant's feet touching ground). The field judge or flag judge will observe and rule on any action after the contestant crosses the score line (such as when steer has been thrown, legality of throw, etc.).
6. Steer belongs to contestant when he calls for him regardless of what happens, except in cases of mechanical failure. In case of mechanical failure, the barrier judge may grant a re-run, plus any barrier penalties.

13. A maximum time limit of 30 seconds per contestant will be allowed. A contestant may make only one jump during the time limit.
14. A steer wrestler will be disqualified if his hazer hips or slows the forward progress of the steer while steer is

FINALS TIE BREAKER rule

1. If there is a tie in the Average then an extra buckle will be bought.
2. If there is a tie for a year end saddle it will result in a runoff.
 - A. In timed events where there is a draw for cattle who ever came into finals in 1st position calls the flip of the coin (heads or tails) and winner draws first. All eligible finals stock for that event will be in the draw and the flip winner draws first and will run first on that head of stock. The flip loser draws second and will go first on the stock he/she draws.

Example:

Contestant A wins the draw and draws stock 7, Contestant B draws second and draws stock 12
Contestant A runs stock 7 and then Contestant B runs stock 7,
Contestant B runs stock 12 and then Contestant A runs stock 12
The times from both runs are taken and averaged and the winner of the average wins the saddle and the loser of the average is Reserve Champion for the year.

B. Barrels and Poles-winner of the flip runs first and loser runs second and then reverses order. Runs are averaged and winner of average on two runs wins the year end saddle and loser wins Reserve Champion.

C. Rough Stock: who ever came into finals in 1st position calls the flip of the coin (heads or tails) and winner draws first. All eligible finals stock for that event will be in the draw and the flip winner draws first and will ride first on that head of stock. The flip loser draws second and will ride first on the stock he draws.

Example:

Contestant A wins the draw and draws bull 00; Contestant B draws second and draws bull 527
Contestant A rides Bull 00 and then Contestant B rides bull 00
Contestant B rides bull 527 and then Contestant A rides bull 527
The scores from both rides are taken and averaged and the winner of the average wins the saddle and the loser of the average is Reserve Champion for the year.
If neither head of stock is covered then the average of the ground time will be used and averaged.

3. The pen should be cleared of all parents and fellow competitors during a runoff or ride off. A Board of Director should be assigned to alley, chutes, boxes, etc. to make sure there is no outside interference. The Board of Director assigned to an area must not be the competitor's parent or sibling to assure no questions of fairness. Contestants should be allowed to have one person assist in the box and choose who pushes their cattle on the roping end. Contestants may choose two persons to assist at the chute at the rough stock end.
4. Contract help judging or timing cannot be a parent or sibling of the competing contestant in a runoff. They can however be the backup timer or barrier judge. In the case of rough stock it would be the decision of the Board of Directors by majority vote as to whether an alternate Judge needs to be brought in in rough stock.

ALL CONTESTANTS, PARENTS, SPONSORS, AND CONTRACT HELP MUST READ ALL CHANGES IN THE RULE BOOK.
CHANGES ARE IN BOLD PRINT.
